FEATURES

#590 Hard Surface Floor Protection Film is a temporary, yet extremely effective ways to protect solid floor surfaces (hardwood floor, ceramic tile, etc.) from tracked in dirt, paint spills, dust, construction debris, and damage. The film acts as a barrier of protection for your floor for up to 45 days. Removal is as simple as lifting the film from the floor and discarding with no damage or residue left behind.

#590 is a tough, 3 mil. Polyethylene film made with environmentally friendly, water based acrylic adhesive applied to one side. The film is highly resistant to tearing and puncturing from sharp items such as tools or high heel shoes. The adhesive and the skid-resistant surface allow the film to stay in place and eliminate creases and tripping hazards typical with standard plastic tarps and drop cloths.

Offered in Both Standard Wind and Reverse Wind for Ease in Application

PRODUCT DESCRIPTION

High performance film consisting of a blend of PE resins designed for the protective film industry. The film exhibits high clarity, superior resistance to punctures, and additional properties for unsurpassed performance in a variety of applications.

PHYSICAL PROPERTIES

Hazardous Components	None
Explosion Limits	None
