### **#892 WOVEN BARRICADE TAPE**

#892 is the heaviest duty grade barricade tape constructed with a woven bidirectional film web for ultimate strength and durability. Resists wind, rain, snow, and other harsh elements. This construction makes it suitable for use in long term projects. It can be tied & untied for repeat use. Tape is designed as a long lasting marking solution for off limit areas and to protect workers and visitors from job site dangers.
