

Stick n' Zip

ADHESIVE ZIPPERS

Installs
Easily in
Minutes!

Create Instant **Entries and Exits!**

Stick n' Zip adhesive zippers provide the ability to create instant entry/exit from polyethylene enclosures, tarps or canvas. These self-adhering zippers can be quickly applied to create a doorway location of your choice and control the spread of dust and other contaminants on the jobsite.

A single two-pack can create a roll-up door for easy entry/exit large enough for moving equipment, ladders etc.

**Create an opening or doorway
wherever you need in your
barrier wall system.**

Why is Stick n' Zip the better choice?

- More adhesive across the width of the zipper creates a tighter seal
- High tack and repositionable during installation
- Wider temperature range than most products in the market -20°F to 150°F

2-Pack of Blue Stick n' Zip Zippers 3" x 84"
