

# Premium Performance

## ELECTRICAL TAPES

We are proud to offer our 850 series, 750 series, and 103C series vinyl electrical tapes that have all of the Premium Performance of the leading National Brands without the Premium Price.

These tapes are designed for maximum performance thru a broad range of temperatures and use a special vinyl base that is formulated to maintain elasticity, stretch and strength throughout these temps.

Our high performance adhesive ensures tight seal/wrap in the most demanding environments.

- **Extremely resistant to weather, moisture, acids, and chemicals.**
- **Provides moisture tight electrical and mechanical protection.**
- **Maintains superior performance properties over a wide temperature range.**
- **Meets ROHS & California standards for low lead content.**
- **Custom Widths are available on all of our Electrical Tapes!**
