

Product Data Sheet

#100

TENSILIZED POLYPROPYLENE TAPE *“Utility, Light Duty”*

DESCRIPTION:

#100 is a utility grade, light duty, tensilized polypropylene strapping tape coated with a rubber based adhesive system. It is an economical alternative to filament tape for palletizing, bundling, and unitizing various materials. Its' impact resistance and “rubberband” type character allows the tape to hold & bundle materials tightly even through expansion and contraction.

APPLICATIONS:

- Used for palletizing, bundling, and unitizing corrugated boxes and other containers.
- Ideal for light demand applications.
- Colored versions can be used for floor marking in exhibition hall preparation and in other color identification and differentiation needs.

PHYSICAL PROPERTIES:

Backing	Mono-axially Oriented Polypropylene
Color	Black, White, and Clear
Adhesive	Rubber Based
Total Thickness	2.7 mil (0.07mm)
Adhesion	47 oz/inch
Tensile Strength	90 lb./inch
Elongation	35% at break
Temperature Resistance	up to 160°F

NOTE: The physical properties listed above are typical test results obtained from a series of laboratory tests and should not be used for the purpose of writing specifications. Before using this product, user shall determine the suitability of the product for his/her use; and user assumes all risks and liabilities in connection therewith. All test procedures used are in accordance with ASTM and PSTC methods.
