

140P SERIES PVC CORROSION PROTECTION-U.P.C. PRINT

DESCRIPTION

Wonder® Brand is a quality black corrosion protection tape constructed with a durable polyvinyl chloride backing and a pressure sensitive rubber based adhesive. It is specifically designed to protect external pipe surfaces from weathering. This versatile product can be easily applied by hand or machine under varying weather conditions.

FEATURES

Tape is printed with U.P.C. logo for industry identification. Compliant to IAPMO-UPC.

APPLICATIONS

- Provides outstanding protection against sunlight, weather, acids, alkalies, corrosive salts and fumes, saltwater, aging, and animal and plant acids.
- Thick backing provides good abrasion resistance and electrical insulation.
- It is ideally suited for valves, elbows and fittings for application both in indoor, manufacturing environments as well as outdoor on jobsites.

PHYSICAL PROPERTIES

Color	Black/U.P.C. Wonder
Total Thickness	10 mil
Tensile Strength	20 lbs./in.
Elongation	150%
Adhesion to SST	20 oz./in.
Minimum Application Temperature	40°F
Operating Temperature Range	-20°F thru 140°F

The physical and performance characteristics shown are averages obtained from tests recommended by ASTM, government agencies or our own procedures. A particular roll may vary slightly from these averages and it is recommended that the purchaser determine the suitability for his own purpose.
