

193
Strapping Tape
Uni-Directional Glass Reinforced Film

DESCRIPTION

A transparent, high adhesion, medium impact strength, rubber based pressure sensitive tape designed for your most utility grade applications. High strength fiberglass strands are securely bonded to tough, durable polypropylene film backing by our unique laminating process, which insures full utilization of the tape roll without backing failure due to strand de-lamination or edge unraveling. Smooth, clear, rubber based adhesive is applied to give an even spread, which insures full surface contact for maximum holding power.

PHYSICAL PROPERTIES

Backing	1 mil Polypropylene
Adhesion to Steel	65 oz./in. width
Tensile Strength	130 lbs./in. width
Elongation	4.0%
Total Thickness	4.0 mils
Temperature Resistance	Good
Holding Power	Excellent
Stain Resistance	Fair

Physical characteristics shown are averages from tests recommended by our own procedures. A particular roll may vary slightly from these averages. The buyer should determine the suitability for his own use.
