

PRODUCT DATA

# # 194 silver Metalized Polyester Tape

## DESCRIPTION / FEATURES

Thin, yet conformable, decorative polyester tape. Silver metalized polyester (1.0mil) coated with a quality solvent based acrylic adhesive. Excellent chemical and thermal stability. Designed primarily for non-electrical applications.

## FEATURES

- Used for reflective shielding.
- Shiny, vibrant surface great in decorative trim and graphic arts applications.
- Reflective surface makes this tape suitable for web splices that utilize photo-sensing detection equipment.

## PHYSICAL PROPERTIES

|                                 |                                       |
|---------------------------------|---------------------------------------|
| Substrate                       | 1.0 mil Metalized Polyester Film      |
| <b>Color</b>                    | <b>Silver</b>                         |
| Adhesive                        | Acrylic (Clear)                       |
| Total Thickness                 | 2.2 mil                               |
| Tensile Strength                | 24 lbs/inch width                     |
| Adhesion to Steel               | 45 oz/inch width                      |
| Elongation (at break)           | 100%                                  |
| Shelf-Life (room temp.; 68% RH) | up to one year (when stored properly) |

Physical characteristics shown are averages from tests recommended by our own procedures. A particular roll may vary slightly from these averages. The buyer should determine the suitability for his own use.
