

## # 275 UV Resistant GREEN Painters Tape

**DESCRIPTION & FEATURES:**

#275 is a Painter’s Grade Masking tape with a specially formulated Blended Solvent Based Rubber Adhesive system that provides clean removal characteristics and UV resistance – up to 7 days of outdoor exposure on most surfaces. However, it must be tested for each specific application & conditions.

- Flexible and conformable for curved and angled masking jobs.
- Tape is solvent resistant to prevent bleed through.
- The unique adhesive provides slightly higher tack and adhesion to handle industrial applications that require stronger hold or adhere better to textured surfaces.

**PHYSICAL PROPERTIES**

Backing	Saturated Green Crepe Paper
Adhesive Type	SB Natural Rubber Blend
Total Thickness	5.4 mil
Adhesion to backing	18 oz/in width
Tensile strength	18lb./inch
Elongation	4%
Temperature Resistance	185°F for 30 minutes

The physical and performance characteristics shown are averages obtained from tests recommended by ASTM, government agencies or our own procedures. A particular roll may vary slightly from these averages and it is recommended that the purchaser determine the suitability for his own purpose.
